Cisco WebEx provided by Arkadin easily makes meetings available for anyone, at anytime, on any device

Cisco WebEx CMR couples Cisco Personal Rooms and the Cloud-based WebEx video bridge into one, always-available meeting experience

Gain a competitive advantage

- Enhance productivity, accelerate sales cycles, and reduce time to market
- Scale meeting capacity from one to hundreds of concurrent participants
- Support quicker user adoption across the organization

Improve flexibility and agility

- Make it easier to join meetings using any standards-based video device, no matter the location or technology
- Respond quicker to market demands and business objectives
- Reduce complexity of technologies working together
- Free-up IT staff to focus on business priorities

Optimize cost savings

- Pay-as-you-go with a subscription service
- Reduce travel costs
- Take full advantage of existing network and device investments

"The combination of cost and quality was a strong argument for Arkadin. Besides, we realized that Arkadin is much more flexible than the other providers we looked at while the team was able to provide the level of expertise we needed."

Reiner Birn

Head of Telecommunication, Continental AG
